

STAIN-CRETE

Available in Nine Beautiful Colors

Black

Walnut

Terra Cotta

Bronze*

Weathered Copper*

Lime Green*

Mission Tan

Rust Brown

Turquoise*

The STAIN-CRETE colors *Weathered Copper, *Lime Green, *Bronze and *Turquoise are to be used only for interior applications, and on concrete that has cured a minimum of 30-60 days. They may react with water and blacken or darken when exposed to excessive moisture. When applying these colors the sub-grade must not be subject to hydrostatic pressure and must be well drained. The chemically stained concrete must be protected from any source of water. NOTE: Colors depicted in this brochure are reproductions and may vary from actual colors.
